

## ABA child safe policy

### Our commitment to child safety

Our organisation is a small, volunteer-run sporting association that is committed to child safety.

We want children to be safe, happy and empowered. We support and respect all children, as well as our officials and other members.

We are committed to the safety, participation and empowerment of all children.

We have zero tolerance of child abuse, and all allegations and safety concerns will be treated very seriously and consistently with our robust policies and procedures.

We have legal and moral obligations to contact authorities when we are worried about a child's safety, which we follow rigorously.

Our organisation is committed to preventing child abuse and identifying risks early, and removing and reducing these risks.

We support and respect all children, as well as our officials and other members. We are committed to the cultural safety of Aboriginal children, the cultural safety of children from a culturally and/or linguistically diverse backgrounds, and to providing a safe environment for children with a disability.

If you believe a child is at immediate risk of abuse phone 000.

### Our children

This policy is intended to empower children who are vital and active participants in our organisation. We listen to their views and respect what they have to say.

We promote diversity and tolerance in our organisation, and people from all walks of life and cultural backgrounds are welcome. In particular we:

- promote the cultural safety, participation and empowerment of Aboriginal children
- promote the cultural safety, participation and empowerment of children from culturally and/or linguistically diverse backgrounds
- ensure that children with a disability are safe and can participate equally wherever possible.

### Our officials and other members

This policy guides our officials and other members on how to behave with children in our organisation.

All of our officials and other members must agree to abide by our code of conduct, which specifies the standards of conduct required when working with children. All officials and other members, as well as children and their families, are given the opportunity to contribute to the development of the code of conduct.

## Recruitment

Our organisation is a small, volunteer-run sporting association with no employees. Nonetheless, all officials are required to hold a Working with Children Check and to provide evidence of this Check. There are some exemptions to this, including parents volunteering in an activity with their child, close family members of a child, teacher, police officers. Please see the [Working with Children Check](http://www.workingwithchildren.vic.gov.au) website [www.workingwithchildren.vic.gov.au](http://www.workingwithchildren.vic.gov.au) for further information

## Procedures for officials and other members

We record all allegations of abuse and safety concerns using our incident reporting form<sup>1</sup>, including investigation updates. All records are securely stored.

If an allegation of abuse or a safety concern is raised, we provide updates to children and families on progress and any actions we as an organisation take.

## Privacy

All personal information considered or recorded will respect the privacy of the individuals involved, whether they be officials and other members, parents or children, unless there is a risk to someone's safety. We have safeguards and practices in place to ensure any personal information is protected. Everyone is entitled to know how this information is recorded, what will be done with it, and who will have access to it.

## Legislative responsibilities

Our organisation takes our legal responsibilities seriously, including:

- Failure to disclose: Reporting child sexual abuse is a community-wide responsibility. All adults in Victoria who have a reasonable belief that an adult has committed a sexual offence against a child under 16 have an obligation to report that information to the police.
- Failure to protect: People of authority in our organisation will commit an offence if they know of a substantial risk of child sexual abuse and have the power or responsibility to reduce or remove the risk, but negligently fail to do so.
- Any personnel who are mandatory reporters must comply with their duties.

## Risk management

In Victoria, organisations are required to protect children when a risk is identified (see information about failure to protect above). In addition to general occupational health and safety risks, we proactively manage risks of abuse to our children.

We have risk management strategies in place to identify, assess, and take steps to minimise child abuse risks, which include risks posed by physical environments (for example, any doors that can lock), and online environments (for example, no staff or volunteer is to have contact with a child in organisations on social media).

## Regular review

This policy will be reviewed every two years and following significant incidents if they occur. We will ensure that families and children have the opportunity to contribute. Where possible we do our best to work with local Aboriginal communities, culturally and/or linguistically diverse communities and people with a disability.

## Allegations, concerns and complaints

Our organisation takes all allegations seriously and has practices in place to investigate thoroughly and quickly. Our staff and volunteers are trained to deal appropriately with allegations.

We work to ensure all children, families, staff and volunteers know what to do and who to tell if they observe abuse or are a victim, and if they notice inappropriate behaviour.

We all have a responsibility to report an allegation of abuse if we have a reasonable belief that an incident took place (see information about failure to disclose above).

If an adult has a reasonable belief that an incident has occurred then they must report the incident. Factors contributing to reasonable belief may be:

- a child states they or someone they know has been abused (noting that sometimes the child may in fact be referring to themselves)
- behaviour consistent with that of an abuse victim is observed
- someone else has raised a suspicion of abuse but is unwilling to report it
- observing suspicious behaviour.
